Building the Talent Pipeline in West Michigan

The Construction Careers Council (CCC) is a collaborative of construction employers, educators, workforce development agencies, union representation, association representation working together to meet West Michigan’s current and future construction talent needs.

The Construction Careers Council:

- is employer-led and convened by West Michigan Work!.
- is collaborative in nature.
- supports local efforts to connect individuals with employment opportunities in construction.
- is focused on career exploration.
- provides opportunities for employers to engage in growing the region’s talent pool.

Council Employer Participants

Wolverine Building Group, Christman Company, Kent Companies, Summit Point Roofing, Dan Vos Construction, International Brotherhood of Electrical Workers – Local 275 (IBEW 275), The Associated Builders and Contractors of West Michigan (ABC), Grand Rapids Community College (GRCC), West Michigan Construction Institute (WMCI), and West Michigan Works!

The Construction Careers Council (CCC) is a collaborative of construction employers, educators, workforce development agencies, union representation, association representation working together to meet West Michigan’s current and future construction talent needs.

The Construction Careers Council offered a traveling roadshow for schools interested in construction career exploration. The council created a 45-minute curriculum that included opportunities for students to speak directly with industry professionals, participate in a hands-on activity, and take a quiz to find out which construction career would be a good fit for them based on personal interests!

In its first year the Roadshow:

- engaged 155+ high school students and five employers.
- highlighted 5 trades.

The council will continue to build this initiative and recognize more women in 2023!

MiCareerConversations

MiCareerConversations was an innovative career exploration event that allowed K-12 students to learn about in-demand construction careers in a safe, virtual setting. Students were given the opportunity to interact with individuals in the following trades: miner, chief experience manager, safety manager, electrician, project manager/estimator, and engineer.

- 385 students from 18 schools registered to attend.

Training Grants

The Construction Careers Council supports and raises awareness for several grants that provide training funds to construction workers. Funds are available through programs such as Going Pro Talent Fund, incumbent worker training grants, and on-the-job training grants.

- Trainees and grant dollars invested in training for the health care industry are highlighted in the table. These numbers represent

<table>
<thead>
<tr>

<td>$57,570,000</td>
<td>120,000</td>
</tr>
<tr>
<td>TOTAL</td>
<td>$115,140,000</td>
<td>240,000</td>
</tr>
</tbody>
</table>

The Construction Careers Council is committed to providing resources to those interested in joining the construction industry. Over the past year the council, along with West Michigan Work!, did extensive research to map out career pathways within the industry. Career guides are now available for the following job families:

- Installation and repair
- Mechanics
- Construction trades
- Construction labor

The Hot Jobs List and career guides can be found at westmichigan.org/hot-jobs.

The Construction Careers Council celebrated Women in Construction Week with another new initiative, the Women Who Built West Michigan. Employers nominated women within their organizations to recognize their efforts and hard work. The council wanted those within the industry to be celebrated and acknowledge the work they have done in a male dominated field!

- 7 employers nominated 17 women across West Michigan.

The council will continue to build this initiative and recognize more women in 2023!

Women Who Built West Michigan

The Construction Careers Council celebrated Women in Construction Week with another new initiative, the Women Who Built West Michigan series. Employers nominated women within their organizations to recognize their efforts and hard work. The council wanted those within the industry to be celebrated and acknowledge the work they have done in a male dominated field!

- 7 employers nominated 17 women across West Michigan.

The council will continue to build this initiative and recognize more women in 2023!

Initiatives

Careers in Construction Month

As part of Careers in Construction Month, a nationwide campaign through Build Your Future, the Construction Careers Council took the pledge to combat the work shortage within the construction industry, engage in a variety of activities to attract youth to join, and promote a positive perception of the industry. To that end, the council created a new initiative: the Construction Traveling Roadshow.

Construction Traveling Roadshow

The Construction Careers Council offered a traveling roadshow for schools interested in construction career exploration. The council created a 45-minute curriculum that included opportunities for students to speak directly with industry professionals, participate in a hands-on activity, and take a quiz to find out which construction career would be a good fit for them based on personal interests!

In its first year the Roadshow:

- engaged 155+ high school students and five employers.
- highlighted 5 trades.

Participating in the traveling roadshow was an incredibly inspirational and fulfilling experience. It allowed our company to reach almost 80 students in hopes of playing a part in their decision-making process as they branch into the next phase of their lives. Hearing the discussion with a handful of students saying how impacted they felt by what we shared was really a full-circle moment and exactly what we had hoped to accomplish when signing up.” - Brooke Mahlebashian, Summit Point Roofing
The work that the Construction Careers Council has done in its first year has been nothing short of inspirational. It is incredible to see the passion that our council members have for the industry. The council accomplished a lot in its first year: going through a strategic planning process, creating new initiatives, participating in career exploration, building out projects for the future, and adding partners regularly. I can’t wait to see what’s in store for next year.”

- Mac Dodds, industry council lead
